## **Objectives:**

The concept of an alumni association emerged from a mutual necessity from the perspectives of both academicians and professionals. Its purpose is to build a robust bridge between college life and career, equipping fresh graduates with the proactivity needed to confront the current challenges of a competitive professional world. Both parties, academicians and professionals alike, shall work hand in hand to support one another in achieving this goal. Thus, the idea blossomed, and the formation of the Alumni Association became a reality.

## **Our mission:**

- Our mission is to forge a dynamic connection between the bustling experience of college life and the adventurous sphere of a career. By immersing today's students into the dynamic professional world, we strive to make them proactive and resilient, ensuring they are well-prepared to confront and overcome any obstacles that may emerge as they navigate their career trajectory.
- To come together once more in the nurturing nest from which we blossomed and soared into the world.
- Our goal is to cultivate a profound understanding among students regarding the wide range of possibilities and the significant scope of their academic subjects in the professional realm, enlightening them about potential career paths.
- Our goal is to open doors for students by providing a vast array of job opportunities and tailored training programs. We focus on enriching their skill sets through in-depth exploration of various subjects, ensuring they are well-prepared for the challenges ahead.
