INFINITY 2022

INFINITY 2022

ORGANIZED BY

YOUTH EMPOWERMENT CLUB
MATHEMATICS CLUB

INFINITY 2022

Title- Infinity 2022

Date- 22 December 2022

Venue- Seminar Hall, SOET,
Sandip University

Participants- Students from
the Sandip Group of
Institutions.

Activities performed:-

1. Inauguration Ceremony
2. Guest's Speech
3. Math Competitions and Games
4. Prize Distribution and Entertainment

In India, the 22nd of December is observed as **National Mathematics Day** commemorating the great mathematician Srinivasa Ramanujan's birth date.

The Sandip Group of Institutions celebrated this day fervently. Together, the mathematics club and the youth empowerment club planned an event called "**INFINITY 2022**".

Students from all Institutes were welcome to participate in various math competitions and other enjoyable activities.

Dr. Prakash Burade, Assoc. Dean, was the main guest at the event. He was joined by the heads of all engineering departments at Sandip University. Namely,

HOD of Civil Engineering Dept. - Prof. Dr. Premanand Naktode,

HOD of Aero. & Mech. Engineering Dept. - Prof. Dr. Vishal Sulakhe,

HOD of Electrical Engineering Dept.- Prof. Dr. Mangesh Nikose,

HOD of First Year Engineering Dept. - Prof. Dr. Mahendra Shinde

The event was enthusiastically hosted by the event coordinators, Mr. Kaustubh Avharkar, Mr. Milind Bholane, Mr. Mehul Patil and other members of Mathematics Club and Youth Empowerment Club.

The goal of **INFINITY 2022** was to provide students a place where they could participate in a variety of mathematical activities and pique their interest in math once more.

"An equation means nothing to me unless it express the thought of god," the famous mathematician Srinivasa Ramanujan once quoted. Sharing the same belief, we held a lamp-lighting ritual, praying and thanking the gods for granting us wisdom.

Assoc. Dean Prof. Dr. Prakash Burade cut a ribbon to officially start the event. All the officials gave their best wishes to all the contestants, and the audience cheered them on.

All the students and Club presidents were enlightened by the wise words of the Chief Guest and Prof. Dr. Premanand Naktode. They both discussed the value of mathematics in engineering and daily life in their addresses.

All of the competitions started soon after. All of the students were eager to participate in the competitions and present their abilities.

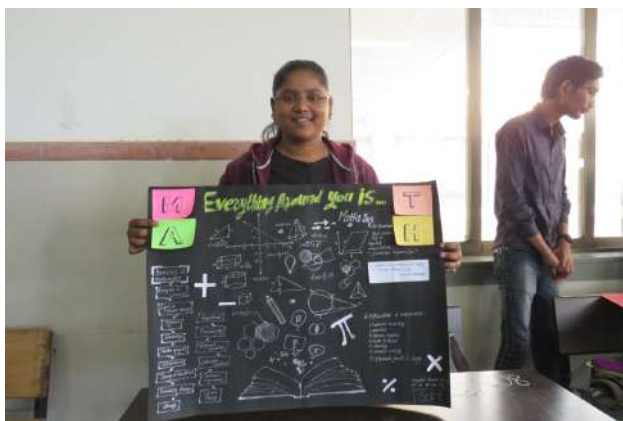

There were three primary events: a poster exhibition, a math quiz, and a research paper submission. Students eagerly participated in all competitions, making them much more exciting.

Inauguration Ceremony

Felicitation of Guests

Poster Exhibition

The students were to utilize their imagination to create Posters for the Poster Exhibition on any mathematical subject. Prof. Girish Gadve and Prof. Shraddha Chavan judged the submissions. The awards were won by Mr. M. Babu and Mr. B. Nikhil Sai for their ingenious posters.

The students had to use their wit to develop and present a highly thorough Report for the research paper submission. Prof. Megha Kothawade and Prof. Dr. Anita Sanap served as the judges for this competition. Ms. Tejashree Bhoknal delivered an outstanding report and was awarded first place for her submission .

The students also participated in a quiz contest in which they had to correctly answer mathematical problems and questions related to general math knowledge. In the quiz competition, K. V. Nanda Kishore, N. Ragavendra, B. Vishnu Vardhan Reddy, and B. Sreenu harnessed their intelligence to win first place.

After each winner received his prize, it was time for celebration. Numerous students engaged in a variety of activities. Everyone enjoyed the group songs and also the dance performances.

Ms. Dipti Patil delivered a speech in remembrance of the great mathematician, Srinivasa Ramanujan on the occasion of his birth anniversary.

Music Performance

INFINITY 2022

INFINITY 2022 sparked a passion for mathematics in the hearts of the students, propelling our ancestral mathematical knowledge to **INFINITY and beyond.**
