Maharashtra Zonals

COGNIZANCE, the annual technical festival of **IIT Roorkee**, along with **THE AURA**, its Educational Partner, brings a series of interesting and interactive events under the Zonals. Zonals are not just an event, they are a journey into the heart of regional technological brilliance. Zonals connect diverse regions through a series of captivating technological events from coding challenges to hackathons. The goal of the Zonals is to bring tech enthusiasts together and to provide a launchpad to their talent.

Event Details

WORKSHOPS – An in-depth knowledge of the topics covered in the workshops covering the minute details of the same to enhance the skills related to it. Participants are expected to bring their laptops, as the workshops will be having coding and project building.

Topics- Java & AI/ML

MINDSWEEPER- A challenging coding competition designed to showcase participants' programming expertise. Participants are expected to bring their laptops, as the competition will be conducted online with onsite invigilators.

TECHZIBITION - Engage in a technical exhibition contest where participants are expected to present their innovative models at the venue, highlighting their technical projects.

QUIZZOTICA- An intellectually stimulating quiz focused on the technical domain. This presents an excellent opportunity for participants to demonstrate their knowledge and win exciting prizes.

CASE STUDY- A case study is an in-depth, detailed examination of a particular case within a real-world context. In this event, you will be given a situation. You have to analyse the situation. Find an appropriate and suitable solution to the problem.

REWARDS :-
