

SCHOOL OF SCIENCE DEPARTMENT OF FORENSIC SCIENCE

INTERNATIONAL CONFERENCE ON RECENT DEVELOPMENTS IN FORENSIC SCIENCE

I C R D F S 2 0 2 4

18 JULY - 20 JULY 2024

About the University

Sandip University, Nashik is one of the premier and the only autonomous, UGC recognised university in the North Maharashtra, India. SUN is located in the historic land of Nashik with a mission to nurture the scientific minds and contribute to the cause of the society. The university is spread across 250+ acres of land with the state of art infrastructure. Sandip university hosts about 50 departments offering range of undergraduate and postgraduate programs in Science & technology, Engineering, Management, Cosmetic Science, Law, Commerce and Computer Science.

About the School

School of sciences was conceived in 2016, which offers various undergraduate, postgraduate and doctoral programmes in the field of Forensic science, Biological science, Chemical science, Physical science and Mathematical science. Currently 700+ students are enrolled in various programmes being offered at School of Science. The school is facilitated with State of Art laboratories and undertakes the real time projects in collaboration with the industries and government agencies to combat the various contemporary challenges.

About the Department

The Department of Forensic Sciences was established in 2022 with the mission to impart quality forensic science education of global standards through innovation and learning by upholding highest values of ethics and professionalism. Department offers UG, PG, and PhD programs in forensic sciences hosting cutting edge innovations in teaching, learning, and research. Furthermore, the department strives to work in thrust areas of crime scene management and forensic examination of biological, chemical, physical, document and digital evidence.

About the Conference

ICRDFS 2024 is aimed to bring together the students, researchers, and professionals of forensic science, law, police and other allied fields on same platform to explore and discuss cutting-edge advancements in the field. ICRDFS focuses to delve into discussions on forensic technologies, crime scene analysis and legal implications, fostering interdisciplinary collaboration. ICRDFS, a global scientific meet would provide a platform for scientific intellectuals to share groundbreaking research and would provide an opportunity to interact with the leading experts and imbibe the essence of forensic science.

Conference Themes

- 1) National Security, CSI & Management,
- 2) Forensic Chemistry & Toxicology,
- 3) Forensic Biology, Serology & DNA,
- 4) Questioned Documents & Fingerprints,
- 5) Forensic Physics & Ballistics,
- 6) Digital Forensics.
