

**Academic Year 2022-23**

**A Report on “ BLOOD DONATION CAMP ”**

- 1. Event Title: “ BLOOD DONATION CAMP ”**
- 2. Event Date:** October 17<sup>th</sup>, 2022
- 3. Event time:** 12:00 p.m. to 3:00 p. m.
- 4. Event Venue:** G-128 | Drawing hall | Mechanical Dept.| Y - Building | SOET | SANDIP UNIVERSITY
- 5. Name of Event Coordinator:**
  - Staff event Coordinator: Mrs Sneha A Shirke
  - Student event Coordinator: S.A.M.E Committee
  - Host of the event: Shresth Kokne
  - Poster Design & created by: Shantanu Wagh & Ayush Sharma

**6. About event:**

**“Every Drop of Blood is a Gift of Life”!!**

A Blood Donation camp was organized in campus on Monday, October 17, 2022 by S.A.M.E. Committee. The camp took place in Drawing hall, Y - Building, SOET, SANDIP UNIVERSITY. The Chief guest were Vice Chancellor Prof Dr. Rajendra Sinha of Sandip University ; Head of Controller Of Examination Dr. Parimala Mani , Sandip University ; Associate Dean Prof. Dr. Prakash Burade of School Of Engineering and Technology, Sandip University ; Mechanical HOD Dr. Vishal Sulakhe and other staffs of Sandip University, Student and Welfare Director Mr. Arif Mansuri ; Director of Sports Dr. Paresh Rege.. A motivating and positive vibe given by our Vice Chancellor and HOD of Mechanical dept. to our students and volunteers which contributed a lot to our successful event. Our supporting partner were **NAVJEEVAN BLOOD BLANK** for the successful blood donation camp event.

Today, India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by Health experts. We need 12 million units of blood every year

but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and faculty members come forward voluntarily to donate blood.

Blood donation can save the lives of innumerable persons. Donation of blood is very critical and crucial for saving the lives of many patients and those who have met with accidents. It is such a great service or contribution to the society and people living in it.

A total of 76 people came forward, but only 64 were eligible to donate blood, 12 got rejected due to Blood pressure or hemoglobin issues. Tests were done to identify their eligibility, before actual donation, also helped all donors to know the status of their health, (above 45kg person eligible). All donors were treated with excellent care before and after donating. Refreshments were provided to all donors. Those donors who felt dizzy after the procedure, were taken care of immediately by the S.A.M.E Committee. It was a successful event that gave immense pleasure and satisfaction to everyone who worked for it. It would not have been possible without everyone's support and enthusiasm.

A certificate of appreciation was given, to each donor and each volunteer who worked for such a noble cause. The College also received a certificate of appreciation for organizing such a valuable event.

A question worth wondering is, how to bring back a life back to power? It's quite easy. Donate Blood. Make it your responsibility.

Never forget, "You are somebody's type".
