Mr. Pravin Auti
(Senior Associate)- ATOS

“Expert Session” with ATOS
for Management Students

Date: 12th September 2026 **Time:** 10:00 AM
Venue: SOCMS- 'S' Building, Smart Classroom M-18

1. Introduction

The Central Training & Placement Cell of Sandip Foundation and Sandip University organized an insightful expert session under the “Meet Your Industry” initiative. The session was designed to expose management students to real-world financial services operations and provide a better understanding of trade reconciliation, fund operations, financial products, process ownership, risk and control, stakeholder management, and technology-enabled operational efficiency. The interaction enabled students to connect their academic learning with practical industry applications and understand the professional skills required in global financial operations.

2. Objectives of the Program

The primary objectives of the session were to:

- Bridge the gap between academic learning and industry practices in financial services.
- Provide practical insights into Financial Services Operations, Trade Reconciliation, and Fund Operations.
- Help students understand cash and position reconciliation across Equities, Fixed Income, Derivatives, FX, and Money Market products.
- Create awareness about financial applications and reconciliation platforms used in industry.
- Develop understanding of process ownership, stakeholder management, risk and control, and process improvement.
- Highlight the importance of automation, analytics, and technology-driven solutions in modern financial operations.

3. Industry Expert

Name: Mr. Pravin Auti

Company: Atos

Role/Designation: Senior Associate

Mr. Pravin Auti has over 7 years of experience in Financial Services Operations, Trade Reconciliation, and Fund Operations. He specializes in managing complex cash and position reconciliation processes across Equities, Fixed Income, Derivatives, FX, and Money Market products. He has extensive experience working with reconciliation platforms and financial applications including Frontier, EZOPS, Geneva, Bloomberg, JIRA, and broker platforms, ensuring accurate and timely resolution of breaks. His expertise spans process ownership, stakeholder management, risk and control, process improvement, and operational efficiency. He is passionate about leveraging automation, analytics, and technology-driven solutions to strengthen controls, improve reconciliation efficiency, and deliver high-quality outcomes across global financial operations.

4. Program Highlights

- The session commenced with a welcome and introduction of the industry expert.
- Mr. Pravin Auti shared practical insights from his professional experience in financial services operations and fund operations.
- Students gained exposure to trade reconciliation and cash and position reconciliation processes.
- The expert discussed reconciliation across Equities, Fixed Income, Derivatives, FX, and Money Market products.
- Insights were shared on industry platforms and financial applications such as Frontier, EZOPS, Geneva, Bloomberg, JIRA, and broker platforms.
- The session highlighted the importance of risk and control, stakeholder management, process ownership, and operational efficiency.
- Students were introduced to the role of automation, analytics, and technology-driven solutions in strengthening financial operations.
- The session included interaction between the expert and students, allowing students to clarify their questions and understand real-world practices.

5. Outcomes of the Session

- Students gained practical exposure to financial services operations and trade reconciliation.
- Students developed a better understanding of fund operations and reconciliation processes across multiple financial products.
- Students became aware of financial applications and technology platforms used in professional operations.
- The session enhanced students' understanding of risk, controls, process improvement, and operational efficiency.
- Students gained insights into the importance of automation, analytics, and technology in modern financial services.
- The interaction strengthened industry-academia collaboration and contributed to students' industry readiness and professional awareness.

6. Conclusion

The "Meet Your Industry" expert session proved to be an informative and valuable learning experience for the Management students of the School of Commerce and Management Studies. The session provided meaningful exposure to financial services operations, trade reconciliation, fund operations, financial products, risk and controls, and technology-enabled process improvement. The practical insights shared by Mr. Pravin Auti helped students understand the connection between academic concepts and real-world financial operations. Overall, the session contributed to enhancing students' industry awareness, professional outlook, and readiness for career opportunities in financial services and related domains.
