

Report on “Career Guidance Session”

The Career Guidance Session was organized as part of the First Year Engineering Students Orientation Program at the School of Engineering and Technology (SOET), Sandip University (SUN). The session was designed to introduce newly admitted engineering students to career opportunities in the engineering field and to encourage early career planning, skill development, and industry readiness.

Name of the Event -	Career Guidance Session
Program-	First Year Engineering Students Orientation Program
Topic-	Career Opportunities in Engineering Field
Date & Day-	08th August 2026 (Saturday)
Time-	01:30 PM
Organized By-	School of Engineering and Technology (SOET), Sandip University (SUN)
Participants-	First Year Engineering Students
Venue-	Seminar Hall, SOET
Guest speaker -	Mr. GuruRaja Kulkarni, Zensar Technologies

2. Introduction

The Central Training & Placement initiative at Sandip University facilitated an informative career guidance session for first year engineering students during their orientation program. The session was conducted by Mr. GuruRaja Kulkarni from Zensar Technologies, who provided students with an industry perspective on career opportunities and professional growth in the engineering domain.

3. Objectives of the Program

- To familiarize first year engineering students with career opportunities in the engineering field.
- To create awareness about different career pathways available after completing an engineering degree.
- To encourage students to start career planning from the first year of their engineering education.
- To highlight the importance of technical knowledge, communication, problem-solving, and other employability skills.
- To provide students with industry-oriented guidance and motivate them to prepare for future professional opportunities.

4. Guest Speaker

The session was delivered by Mr. GuruRaja Kulkarni, Zensar Technologies, who shared industry-oriented guidance with the first year engineering students. His interaction helped students gain an initial understanding of professional expectations and the importance of developing relevant skills during their academic journey.

5. Program Highlights

- The session commenced with an introduction to the purpose of career guidance during the first year of engineering.
- Mr. GuruRaja Kulkarni discussed career opportunities and possible professional pathways in the engineering field.
- Students were encouraged to understand their interests and strengths while planning their future careers.
- The importance of continuous technical and professional skill development was emphasized.
- The session provided students with an opportunity to gain an industry perspective at the beginning of their engineering journey.
- Students actively participated in the session and interacted with the guest speaker.

6. Outcomes of the Session

- Students gained awareness about career opportunities available in the engineering field.
- Students developed a better understanding of the importance of early career planning.
- The session motivated students to focus on technical as well as employability skill development.
- Students received valuable industry-oriented guidance from an experienced corporate professional.
- The interaction helped create awareness about preparing for future academic and professional opportunities.

7. Conclusion

The Career Guidance Session conducted during the First Year Engineering Students Orientation Program was informative and beneficial for the students of SOET. The interaction with Mr. GuruRaja Kulkarni of Zensar Technologies provided students with an industry perspective on career opportunities in engineering and encouraged them to begin their career planning at an early stage.

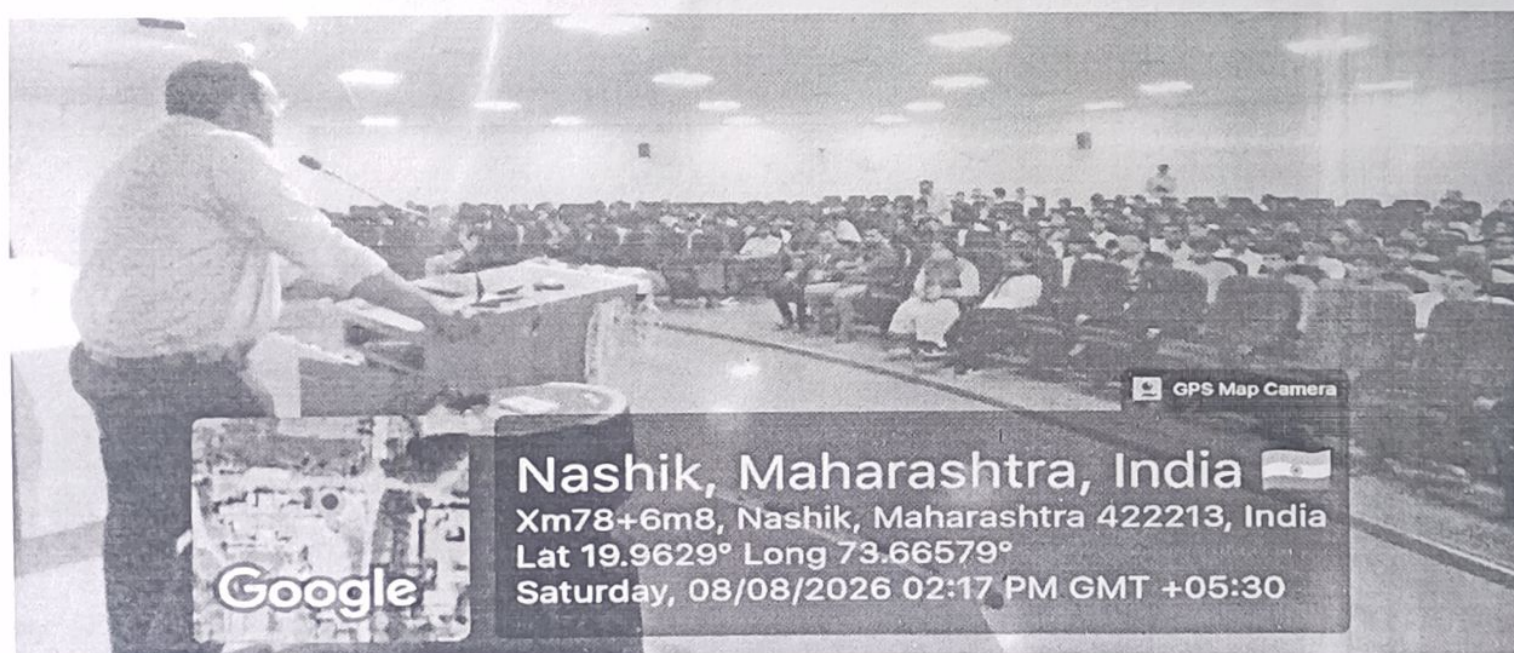

Overall, the session contributed to building awareness, confidence, and motivation among first year engineering students toward their future careers.

8. Acknowledgment

The School of Engineering and Technology, Sandip University, extends sincere gratitude to Mr. GuruRaja Kulkarni, Zensar Technologies, for sharing his valuable time and insights with the first year engineering students. The university also acknowledges the support of the concerned faculty members, coordinators, and students for their active participation and contribution towards the successful conduct of the session.

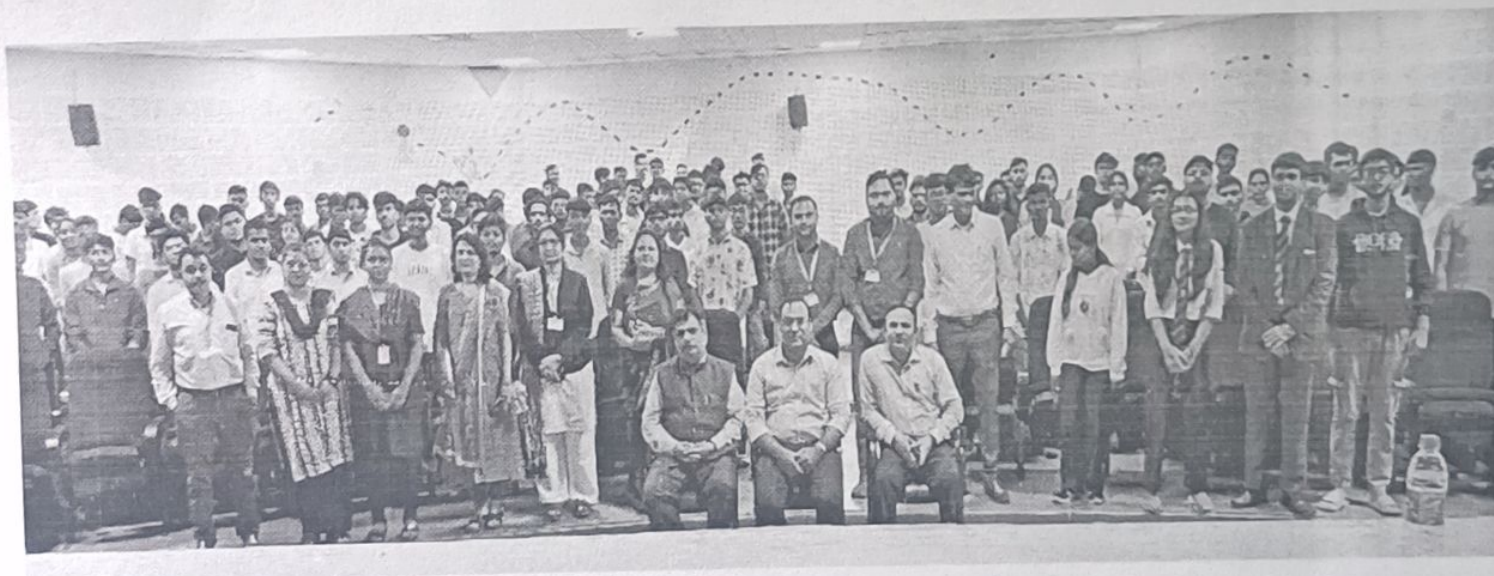

Felicitation of the guest Mr. Gururaja Kulkarni with
