Outline of Program: Department of Computer Science & Application, School of Computer Sciences and Engineering organized Basics of Python by FOSSEE, IIT Bombay from date 8th July 2025 to 10th July 2025 for the Second Year BCA, BSc CS & MCA Students. Python has become one of the most popular programming languages in the world due to its simplicity, versatility, and wide range of applications. The workshop was organised in virtual mode on the Yaksh portal of FOSSEE, IIT Bombay.

The objective of the Program:

The primary objective of this Python workshop is to introduce participants to the fundamentals of Python programming and help them build a solid foundation in coding. The workshop aims to familiarize learners with Python's simple syntax, core concepts, and real-world applications. It focuses on developing problem-solving skills by teaching how to write basic programs using variables, data types, operators, control structures, functions, and data structures.

Output of Program: By the end of the Python workshop, participants gained a strong foundational understanding of Python programming and its practical uses
