Sub: All Faculty Participation in FDP on 08-08-2026

This is to inform all faculty members of CSE, AIML, CSF and CTIS that the department is organizing a **Faculty Development Program (FDP)** on **"Innovation and Future Career Opportunities in This Rapidly Transforming Field."**

The FDP aims to provide valuable insights into **emerging technologies, innovation, Artificial Intelligence (AI), and future career opportunities**. All faculty members are encouraged to actively participate in the programme and support this initiative to enhance their knowledge, skills, and awareness of emerging career opportunities in the rapidly evolving technological landscape.

Your active participation will contribute to making the FDP informative, engaging, and beneficial for academic and professional development.

Event : FDP on Innovation and Future Career Opportunities in this Rapidly Transforming Field
Place : Online Mode

Timings: 04.00 PM to 05.00 PM (IST)

All faculty members are encouraged to actively participate in the programme. Interested students are also requested to report at the designated venue on time.

For further details, please contact Dr. Mona Taman, Chief Technology Officer and Prime Consultant for Consultations, Doha, Qatar.

Dr. Amar Singh Vagpe

Associate Dean

Details of the Event: Faculty Development Programme on Innovation and Future Career Opportunities in Emerging Technologies

Date of the Event : 08-08-2026
Name of the Event : FDP
Venue : Online Mode
Time : 04.00 PM to 05.00 PM
No. of Participants 30

Objective:

The objective of the FDP on **"Innovation and Future Career Opportunities in This Rapidly Transforming Field"** is to provide participants with an understanding of emerging technologies, innovation trends, and evolving career opportunities. The FDP aims to enhance participants' knowledge of the rapidly changing technological landscape, encourage innovative thinking, and help them identify new career pathways and professional opportunities.

Description:

The FDP focused on the rapid transformation taking place in technology and its impact on education, industry, research, and professional careers. The session highlighted emerging technologies, innovation-driven practices, changing industry requirements, and the skills needed to remain relevant in the future job market. Participants gained insights into how technological advancements are creating new career opportunities while also transforming existing job roles. The FDP encouraged faculty members and learners to continuously upgrade their technical, professional, and research skills.

Outcome:

1. Participants gained awareness of emerging technologies and current innovation trends.
2. Participants understood the changing career landscape and future employment opportunities.
3. The session enhanced awareness of industry-relevant technical and professional skills.
4. Participants gained insights into continuous learning, up skilling, and reskilling.
5. The FDP encouraged innovative thinking, creativity, and technology-oriented problem solving.
6. Participants were motivated to explore new career pathways, entrepreneurship, research, and innovation opportunities.

7. Faculty members gained insights that can be incorporated into teaching, mentoring, and student career guidance.

Impact on Society:

The FDP highlighted how innovation and emerging technologies can contribute to social and economic development. The knowledge gained can help educators and learners promote technology-driven solutions to real-world problems in areas such as education, healthcare, agriculture, business, communication, and sustainable development. By encouraging innovation, digital skills, entrepreneurship, and continuous learning, the FDP can contribute to developing a skilled workforce capable of addressing future societal challenges and supporting inclusive technological growth.
