Subject: Notice for Poster Competition on E-Waste – 31st August 2026

The Department of Computer Science & Applications, School of Computer Science & Engineering, Sandip University, Nashik, is pleased to announce a Poster Competition on E-Waste. The competition is organized to create awareness among students about the increasing generation of electronic waste, its impact on the environment, and the importance of responsible e-waste management.

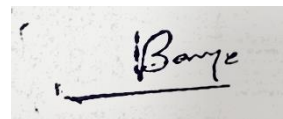

Event: Poster Competition on E-Waste

Venue: S-125, Seminar Hall, O-Building

Date: 31st August 2026

Timings: 11:30 AM onwards

All interested students are encouraged to participate actively in the competition and showcase their creativity, knowledge, and innovative ideas through informative posters. The event will provide an excellent opportunity for students to develop their creative and presentation skills while spreading awareness about e-waste recycling, reuse, responsible disposal, and environmental sustainability.

Number of Participants: 61

Organizing Committee: Faculty Members and Student Volunteers of the Department of Computer Science & Applications, School of Computer Science & Engineering, Sandip University, Nashik.

Brief description of Event:

The Department of Computer Science & Applications, School of Computer Science & Engineering, Sandip University, organized a **Poster Competition on E-Waste** on 31st August 2026 at S-125, Seminar Hall, O-Building.

The competition was organized to create awareness among students about the growing problem of electronic waste and its impact on the environment and human health. Students participated enthusiastically and presented creative and informative posters highlighting various aspects of e-waste, including its sources, environmental impact, proper disposal, recycling, reuse, and sustainable management practices.

The event provided students with an opportunity to express their creativity and communicate important environmental messages through visual representation. The

activity also encouraged students to think critically about responsible consumption, disposal, and recycling of electronic devices.

Objective of the Event:

The main objective of the Poster Competition was to create awareness among students about the increasing generation of electronic waste and its harmful effects on the environment.

The event aimed to:

- Educate students about the causes and consequences of e-waste.
- Promote awareness about proper collection, segregation, recycling, and disposal of electronic waste.
- Encourage students to adopt environmentally responsible practices.
- Develop creativity, communication, and presentation skills among students.
- Encourage students to explore sustainable solutions for e-waste management.
- Promote environmental consciousness and social responsibility among the student community.

Outcome of the Event:

The Poster Competition successfully created awareness among students regarding the importance of proper e-waste management and environmental sustainability. Participants gained a better understanding of the environmental and social challenges associated with improper disposal of electronic waste.

The activity enhanced students' **creative thinking, communication, presentation, and awareness-building skills**. Through their posters, students effectively communicated messages related to recycling, reuse, responsible disposal, and sustainable management of electronic devices.

The event also encouraged students to take greater responsibility toward environmental protection and motivated them to adopt sustainable practices in their daily lives. Overall, the competition provided an effective and engaging platform for students to combine
