CIRCULAR

Subject: Expert Lecture on “Recent Trends in AI”

This is to inform all B.Tech. Computer Engineering students of the School of Computer Science and Engineering (SOCSE) that the Department of Computer Science and Engineering is organizing an Expert Lecture on “Recent Trends in AI” to provide students with insights into the latest advancements, emerging technologies, industry trends, and real-world applications of Artificial Intelligence.

Event: Expert Lecture

Place: O Building Seminar Hall

Date: 11 July 2026

Timings: 11:00 AM to 2.00 PM

The lecture will cover contemporary developments in Artificial Intelligence, including Generative AI, Machine Learning, Deep Learning, Large Language Models (LLMs), Natural Language Processing, Computer Vision, and emerging AI applications. The session will also provide students with awareness of career opportunities, industry requirements, and future prospects in the field of AI.

All concerned students are encouraged to attend the session and actively participate in the interaction with the expert.

Event Name

Details of the Event:

Date of event: 11 July 2026

Name of Event: Expert Lecture “Recent Trends in AI”

Venue: O Building Seminar Hall, Sandip University

Time: 11:00 AM to 2.00 PM

Details of Speaker/Designation/Photograph (if any): Mr. Rahul Agrawal

Name of Coordinator: Dr. Prajakta Shirke

Number of Participants: 120

Organizing Committee:

1) Dr. Prajakta Shirke (Co-ordinator)

Brief description of Event:

The School of Computer Science and Engineering (SOCSE), Department of CSE, organized an expert lecture on “Recent Trends in AI” on 11 July 2026 at 11:00 AM at the Building Seminar Hall. The session was conducted for B.Tech. Engineering students to provide them with practical insights into the latest advancements and emerging trends in Artificial Intelligence.

The event commenced with a brief welcome and introduction to the theme of the lecture. The expert Mr. Rahul Agrawal elaborated on recent developments in AI and discussed emerging technologies such as Generative AI, Machine Learning, Natural Language Processing, Computer Vision, and AI-driven applications. Real-world examples and industry-oriented use cases were presented to help students understand the practical relevance of AI in various engineering domains.

The session was interactive and engaging, with students actively participating in discussions and raising questions related to AI technologies, applications, career opportunities, and future developments. The expert addressed the queries and provided valuable guidance on developing technical skills and exploring career and research opportunities in AI. The lecture was successfully coordinated by Dr. Prajakta Shirke, with the support of the Department of CSE and SOCSE. A total of 178 students participated in the event. The session concluded with a brief interaction and a vote of thanks.

Objective of the Event:

The objective of the expert lecture “Recent Trends in Artificial Intelligence” is to provide B.Tech.CSE students with an understanding of emerging AI technologies, current industry trends, and their real-world applications. The lecture aims to bridge the gap between academic knowledge and industry practices, enhance students’ technical awareness, encourage innovation and research, and provide insights into career opportunities in the rapidly evolving field of Artificial Intelligence.

Outcome of the Event:

The expert lecture on “Recent Trends in AI” was successfully conducted and provided B.Tech. CSE students with valuable insights into the latest advancements, emerging technologies, and practical applications of Artificial Intelligence. The interactive session enhanced students’ understanding of current AI trends and motivated them to explore further learning, projects, research, and career opportunities in the field.

EXPERT LECTURE ON RECENT TRENDS IN AI

Explore. Learn. Innovate. Lead the Future.

An insightful session on the latest advancements, emerging technologies, and real-world applications of **Artificial Intelligence**.

TOPICS TO BE COVERED

- Generative AI & Large Language Models (LLMs)
- Machine Learning & Deep Learning
- Natural Language Processing (NLP)
- Computer Vision & AI Applications
- AI in Industry – Use Cases & Future Outlook
- Career Opportunities in AI

DATE
11 July 2026

TIME
11:00 AM

VENUE
O BUILDING SEMINAR HALL

DURATION
2 HOURS

WHO CAN ATTEND?
B.Tech. Engineering
Students

FACULTY COORDINATOR
Dr. Prajakta Shirke

ORGANIZING DEPARTMENT
CSE / AIML / CSF / CTIS

All are Cordially Invited!

Gain knowledge. Get inspired. Shape the future with AI.
