

Report on Parents-Teachers Meet 2025

Organized by: Department of Mechanical Engineering, SOET, Sandip University, Nashik

Date: 08th March 2025

Time: 10:00 am

Venue: Board Room, Mechanical Department

Overview:

The Department of Mechanical Engineering conducted a Parents-Teachers Meet on 08th March 2025 at the Board Room, Mechanical Department. The meeting aimed to strengthen communication between faculty and parents, address academic progress, and discuss strategies for student development.

Key Agenda:

1. Interaction with Parents:

- Faculty members and the Head of the Department welcomed the parents and guardians.
- Discussions focused on students' academic and extracurricular performance.

2. Documents Review: The respective Faculty Advisors (FAs) ensured the following documents were updated and discussed during the meeting:

- **Attendance Records:** Analysis of attendance trends and strategies to improve consistency.
- **Final Year Project Status:** Updates on project progress, guidance sessions, and submission deadlines.
- **Placement Data:** Led by Mr. Durgesh Borse, highlighting placement opportunities, company tie-ups, and upcoming recruitment drives.
- **Overall Student Development Feedback:** Collecting feedback on student growth, skills development, and areas requiring further attention.

Key Highlights:

- Faculty Advisors reached out to all parents/guardians before the meeting to ensure maximum participation.
- Constructive feedback from parents was welcomed and documented for action.
- Emphasis was placed on collaborative efforts between faculty and parents to ensure holistic student development.

The Parents Meet fostered a productive dialogue between the Department of Mechanical Engineering and the parents/guardians. The discussions provided valuable insights into students' academic and personal development, underscoring the department's commitment to excellence and collaboration. Action points from the meeting will be reviewed and implemented in the upcoming semester.

Glimpses of the meet:
