Name of Event: Community Engagement Project

Venue: Mahirawani.

Time: 13:00 PM

Details of Speaker/Designation/Photograph (if any):

Name of Coordinator: Dr. Abhilash Kumar K A / Mr. Pratik Verma

Number of Participants: 21

Brief description of Event:

The Department of Civil Engineering, Sandip University, successfully conducted a Community Engagement Project at Mahirawani, Maharashtra, bringing together our students, faculty members, and the local community.

The initiative provided an opportunity for our students to step beyond the classroom and interact directly with the community, understand local needs, and contribute towards social awareness, sustainable development, and community well-being.

Through meaningful interactions and field-level engagement, our students gained valuable insights into the challenges faced by local communities and the important role of engineers in creating sustainable solutions.

Objective of the Event:

- To provide students with practical exposure to community-based issues and local challenges beyond the classroom.
- To understand the social, environmental, and infrastructural needs of the Mahirawani community.
- To develop students' communication, teamwork, leadership, and problem-solving skills through direct community interaction.
- To create awareness among the local community regarding safety, sustainability, hygiene, environmental protection, and well-being.

- To encourage students to apply their engineering knowledge for socially relevant and sustainable solutions.

Outcome of the Event:

- Students gained first-hand understanding of local community needs and challenges through field-level interaction.
- Students developed improved communication, interpersonal, teamwork, and leadership skills.
- The community benefited from awareness and knowledge-sharing activities conducted by the students and faculty.
- Students gained an understanding of how civil engineering can contribute to sustainable community development.
- The project enhanced students' social responsibility, empathy, and civic engagement.
