EVENT REPORT

REPORT ON ENGINEERS' DAY CELEBRATION

Department of Electronics & Telecommunication Engineering

School of Engineering & Technology, Sandip University, Nashik

The **Department of Electronics & Telecommunication Engineering, School of Engineering & Technology, Sandip University, Nashik**, celebrated **Engineers' Day** on **15 September 2026** at **3:00 PM** in the **E&TC Department Conference Hall, SOET-Y Building, Sandip University, Nashik**.

The celebration was organized to commemorate the birth anniversary of **Sir Mokshagundam Visvesvaraya**, one of India's most distinguished engineers and statesmen. The day provided an opportunity to recognize the significant contribution of engineers towards technological advancement, innovation, infrastructure development, and nation-building.

The program commenced with a warm welcome to the faculty members and students. The significance of Engineers' Day and the remarkable contributions of **Sir M. Visvesvaraya** were highlighted during the program. Faculty members shared valuable insights on the role of engineers in addressing contemporary technological challenges and contributing to sustainable development.

The event also emphasized the importance of **innovation, creativity, problem-solving, professional ethics, and continuous learning** among engineering students. Students actively participated in the celebration and expressed their views on the evolving role of engineers in emerging areas of technology.

The celebration provided an inspiring platform for students to understand the responsibilities of an engineer and encouraged them to develop technical competence along with social responsibility. The program concluded with a vote of thanks to all faculty members and students for their active participation and support.

Key Highlights

- Celebration of **Engineers' Day** in remembrance of **Sir M. Visvesvaraya**.
- Awareness about the contribution of engineers to society and nation-building.
- Interaction and knowledge sharing between faculty members and students.
- Encouragement of innovation, creativity, and professional responsibility.
- Active participation of students in the celebration.

SDG Mapping:

The Engineers' Day Celebration contributed to the **United Nations Sustainable Development Goals (SDGs)** by promoting quality education, innovation, and responsible professional development among students.

The event primarily supported **SDG 4 – Quality Education** by providing students with awareness and learning opportunities related to engineering, innovation, professional ethics, and the role of engineers in society. It also aligned with **SDG 9 – Industry, Innovation and Infrastructure** by encouraging students to develop innovative thinking, technical competencies, and problem-solving skills that can contribute to technological advancement and sustainable infrastructure.

The celebration also promoted values of **responsible innovation, lifelong learning, and social responsibility**, encouraging future engineers to use their knowledge and skills for the sustainable development of society.

Conclusion

The **Engineers' Day Celebration** organized by the Department of Electronics & Telecommunication Engineering was successfully conducted with active participation from students and faculty members. The event provided an opportunity to commemorate the remarkable contribution of **Sir M. Visvesvaraya** and to highlight the importance of engineering in the development of society and the nation.

The celebration motivated students to pursue excellence in their technical education, develop innovative solutions, and understand their responsibilities as future engineers. It also reinforced the importance of **innovation, ethical practices, continuous learning, and social responsibility** in the engineering profession.

Overall, the event was **informative, inspiring, and meaningful**, and successfully created awareness among students about the role of engineers in technological advancement and sustainable development.
