The Department of basic Engineering Sciences conducted a guest lecture on the 1st February 2022. The eminent speaker - Prof. Jagdish Patel, spoke on the topic - “Role of Technology Business Incubator for students’ development”. Prof. Jagdish Patel Sir made the session very interesting by explaining the term “Technology Business Incubators” (TBI). TBI are a powerful economic development tool which promote the concept of growth through innovation and application of technology. It supports the economic development strategies for small business development, and encourages growth from within local economies, while also providing a mechanism for technology transfer. He also explained that Business incubation is a business support process that accelerates the successful development of start-up and fledgling companies. Later, he walked the students through a series of slides that helped them to classify the Incubators.

The session was very interactive and ended with many students requesting for more such sessions.
