Report on Industrial visit to Shree Engineers

Title- Industrial visit to Shree Engineers

Date- 12/12/2022 and 13/12/2022

Venue- Shree Engineers, Ambad, Nashik.

Participants- 100+ B. Tech 2nd year Aerospace Engineering, SOET, Sandip University

Coordinator: Mr. Sandeep Juluru, Aero Department

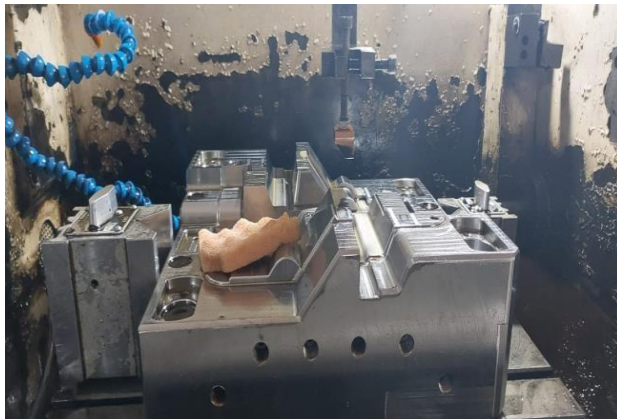

On 12th and 13th of December 2022, SOET, Department of Aerospace Engineering arranged an industrial visit to Shree Engineers, Ambad, Nashik for the students of B. Tech 2nd year Aerospace Engineering.

All the students were accompanied by a faculty coordinator Dr. Ravi Krishna Swami & Sujeet Pandey under the guidance of HOD Aerospace Dr. Vishal N Sulakhe and with the permission of Dean SOET Dr. Prakash Burade. The industrial visit was divided into two days 12th and 13th for Div A and B respectively.

We started from the college at 11:00 am in the college bus and reached Shree Engineers at 11:30 am. The manager gave us a tour of the industry and then explained all the types of equipment and machines used there. There are more than 15 machines at the factory, which are mostly used for machining, shaping and finishing jobs. Some of the machines include:

1. VERTICAL MACHINING CENTER
2. WIRE EDM MACHINE
3. SPARK EROSION MACHINE (EDM)
4. SPARK EDM MACHINE
5. INSPECTION FACILITY MACHINE

The visit helped the students learn about different types of machines, soft wares and materials used in aerospace industries. It also helped to gain a practical experience of the things given in the theoretically. Various aspect of industries was covered in much smaller duration providing a better exposure of the industries to the student who are going to work in them.

We thanked the Staff of Shree Engineers. It was a very interesting and informative visit. We would like to thank our department for arranging this industrial visit to Shree Engineers. We all were intrigued by the visit.
