EVENT REPORT

Event Name: Environment Day 2024

Date of the Event: 5th June 2024

Duration of the Event: 11:00 AM to 12:00 P.M.

Venue: Clock Tower, S- Building

Name of the Event Coordinator: Ms. Anuja Nehe (Assistant Professor, SOL) Sandip University, Nashik.

Objective of the Program:

The objective of celebrating Environment Day is to raise global awareness about pressing environmental issues, encourage proactive actions to protect and conserve the natural world, educate the public on sustainable practices, and foster a sense of collective responsibility towards creating a healthier, more sustainable future for all. By engaging communities, promoting policy advocacy, and highlighting successful environmental initiatives, Environment Day aims to inspire individuals, organizations, and governments to adopt eco-friendly habits and policies, ensuring the well-being of our planet for future generations.

Outline of the Program:

Faculties Celebrate Environment Day 2024 by Planting Saplings. In a vibrant display of environmental stewardship, the faculties of the School of Law (SOL) celebrated Environment Day 2024 with a sapling plantation drive within the university campus. This initiative underscores the university's commitment to sustainability and environmental conservation.

The event commenced with the ceremonial planting of saplings by senior faculty members. Various native species of trees were chosen to ensure ecological balance and support local biodiversity. Alongside the plantation drive, an awareness campaign was conducted to educate students and staff about the importance of tree planting and environmental conservation. Participants took a pledge to contribute to the university's green initiatives and to adopt sustainable practices in their daily lives.

Impact:

The sapling plantation is expected to enhance the green cover of the campus, providing a healthier and more aesthetically pleasing environment. It also serves as a practical educational tool for students, illustrating the impact of proactive environmental measures.

Conclusion:

The university plans to make the sapling plantation drive an annual event, with continuous monitoring and care of the planted trees. Additional initiatives will include workshops on sustainability, recycling programs, and collaborations with environmental organizations.

The Environment Day celebration by the SOL faculties is a commendable effort to promote environmental awareness and action. Such initiatives play a crucial role in fostering a culture of sustainability and responsibility among the academic community.

Place: Nashik

Date: 05/06/2024
