### **Objective of the Program:**

It aims to inculcate the values of scientific thinking, appreciate scientific development, and drive away superstition, religious bigotry, and all forms of pseudo-science.

### **Outline of the Program:**

School of Law, Sandip University, organised Guest Lecture on “Superstitions & Scientific Temperament”. The resource person being a member at Member at Superstition Eradication Committee spoke about Scientific Temper as one of the most important terms often debated upon in academic discourses in India. Fostering scientific temper is one of our Fundamental Duties enshrined in our Constitution. On the other hand, superstitious beliefs are deeply rooted in our society which we witness in everyday life. Time and again the resource person along with this team has made several attempts by demonstrating the scientific reason behind the magic shows and superstitions inculcated by fraud/fake/imposter baba into the minds of innocent people. The resource person has suggested promotion of scientific temper for ‘logical thinking and reasoning’. He discussed is not the extreme contradiction between scientific temper and superstitions. The resource person also demonstrated various experiments how people fool general public and what’s the scientific reason behind it.

Lastly vote of thanks was delivered by student and the guest speaker has agreed to be associated with School of Law to arrange such fruitful sessions in future as well. The session was a success and the discussion on the above topic was enriching to the budding lawyers of future.
