**Induction Programme**  
**of**  
**Finastra Certification Course**  
**for**  
**(BBA IV<sup>th</sup> & BBA BA IV<sup>th</sup> Semester)**  
**05/02/2024**

On February 5, 2024, the FINASTRA CERTIFICATION COURSE induction program occurred at S Building's seminar hall. Mr. Rahul Jain, the program's trainer, provided an overview and detailed course information. Faculty coordinators Dr. Tanushree Gupta and Mrs. Madhuri Tambe, along with Dr. Rupali Khaire, Dean SOCMS, were present. The event registered more than 90 students for the certification program. Ms. Tanushka Salve & Mr. Adit Shah from BBA IV semester are the student's coordinators for the certification programme

FINSTRA certification will advance the career of the students by adding the BFSI skills and soft skills, which will help the students build their careers in the BFSI sector. The certification program is 240 hours during which the Trainers will impart knowledge of the BFSI sector along with soft skills.

**About FINSTRA certification:**

Technology and Digitalisation are taking over the BSFI industry as the Indian government has extended the reach of banks and finance corps even to the country's remote regions. While there would be substantial job opportunities in the BFSI sector, the reality is that the skills needed in tomorrow's BFSI world will be very different from those available today. Increasing digitization, process automation and technology-driven approaches will mean fewer branch-based relationships with customers and more digital interactions To fill the gap between the huge workforce requirement in the industry and the lack of skilled personnel, ICT Academy in association with Finastra organizes the Student Transformation Program for arts, science, and management institutions. Students will be trained in advanced BFSI skills and soft skills. This training will enable students to focus on career development and learn today's technology trends in the industry.
