A visiting professor from India gave lectures at Kupala University

As part of the "Invited Professor" program, the Director of the Institute of Engineering and Management of Sandip University, Director of International Relations of Sandip University (Republic of India), Professor Deepak Pandurang Patil visited the Faculty of Mathematics and Informatics.

The professor gave lectures in English for students of the specialty "Information Technology Software". The students were presented with the prospects for the development of artificial intelligence and machine learning technologies, technologies for analyzing and processing big data. During the visit, Professor Deepak Patil met with Vice-Rector for Academic Affairs Leonid Kravtsov, Dean of the Faculty of Mathematics and Informatics Elena Livak, Head of the Department of International Cooperation Olga Minova, Head of the Center for Internationalization of Education Elena Belokoz, Head of the Department of Modern Programming Technologies Anna Karkanitsa and the staff of the Department. Head research department by Anton Glazev and Head of the Technology Transfer Center Elena Opekun.

Preliminary agreements were reached on organizing a summer IT school for students from India at the Faculty of Mathematics and Informatics, and prospects for designing a joint educational program and scientific cooperation were outlined. The guest also met with foreign students of the Faculty of Mathematics and Informatics, representatives of the community of foreign students, visited the science and technology park, participated in the student battle in mathematics and programming, organized for 1st year students of the specialty "Information Technology Software".

For a foreign guest, an excursion to the Museum of the History of Development of the Yanka Kupala State University, a tour of the historical sights of the city of Grodno, a visit to the agro-tourist complex "Gardzenski maentak" were organized. Professor Deepak Patil admired the concept of Kupala University as a university-museum and left a note in the guest book of the university.
