Subject: E-POSTER & HANDMADE POSTER PRESENTATION COMPETITION

Date of Competition: 22 September 2026

All students are hereby informed that an E-Poster and Handmade Poster Presentation Competition is being organized as part of the National Pharmacy Week 2026 celebration. The activity aims to encourage scientific thinking, creativity, research awareness, innovation, and effective scientific communication among students. Students are encouraged to select one topic from the subject-wise themes given below and present the topic in a clear, creative, scientifically accurate, and informative manner.

Subject-wise Poster Topics

Subject	Suggested Topics
Pharmaceutical Chemistry / Medicinal Chemistry / Pharmaceutical Analysis	Structure-Activity Relationship; Green Chemistry; Drug Degradation & Stability; Shelf-Life Prediction; From Molecule to Medicine; Stereochemistry in Drug Action; Hyphenated Analytical Techniques
Pharmaceutics	Novel Drug Delivery Systems; Nanotechnology in Drug Delivery; Personalized Medicine; 3D-Printed Medicines; Microneedle Drug Delivery; Advanced Dosage Forms
Pharmacology	Mechanism of Drug Action; Adverse Drug Reactions; AI in Drug Safety; Organ-on-Chip Technology; Antimicrobial Resistance
Pharmacognosy / Phytochemistry	Herbal Drug Standardization; Medicinal Plants; Herbal Drug Adulteration; Phytochemical Lead Discovery; Plant-Based Nanomedicine

Poster Instructions

1. Students may participate in **either Handmade Poster or E-Poster presentation.**
2. **E-Poster size:** 1 × 1 metre.
3. **Handmade Poster:** Use a standard thick card sheet.
4. The poster should contain **title, relevant scientific content, illustrations/figures, and references.**
5. Content should be **concise, scientifically accurate, well-organized, and visually**

attractive.

6. Students may refer to **textbooks, research papers, official guidelines, and authentic scientific sources.**
7. **Use of AI websites/tools for generating poster content, text, images, or design is not permitted.**
8. The final poster should be **checked and approved by the assigned mentor before presentation/printing.**
9. Students should be prepared to **briefly explain and present their poster before the jury.**
10. Evaluation will consider **scientific content, relevance, originality/creativity, organization, visual presentation, and explanation.**

Prizes & Certificates

-  Best Poster – Each Department
-  Overall Best Poster
-  Certificate of Participation for all participants

Students are encouraged to think beyond the textbook and explore how pharmaceutical sciences can address real-world healthcare, research, industrial, and societal challenges.

Event Name

Details of the Event: Hand made and E-Poster competition

Date of event: 22-09-2026

Name of Event: Handmade and E-Poster Competition

Venue: F-10 Sport room, SOPS and F-12 B Smart room of SOPS

Time: 11.00 am Onward

Details of the jury

Pharmaceutics	Dr. Rao
Pharmacology	Dr. Kaleem Khan
Medicinal Chemistry	Dr. Rupali wagh
Pharmacognosy Phytochemistry	Dr. Sumit deore

Name of Coordinator: Dr. Rupali wagh

Number of Participants: List is attached

Organizing Committee: Dr. Rupali Wagh, third-year and final-year volunteers

Brief description of Event:

The Handmade Poster and E-Poster Competition was organized on 22 September 2026 as part of the Pharmacy Week/National Pharmacy Day celebration. Students actively participated by preparing and presenting creative, informative posters on various emerging topics in pharmaceutical sciences, including 3D printing, microneedle drug delivery, AI in pharmacy, antimicrobial resistance, green chemistry, advanced drug delivery systems, herbal drugs, and mechanisms of drug action. The event provided students with an opportunity to enhance their scientific knowledge, creativity, research interest, and presentation skills while encouraging learning beyond the prescribed syllabus.

Objective of the Event:

To encourage students to explore emerging and innovative topics in pharmaceutical sciences, develop scientific creativity and communication skills, and promote learning beyond the prescribed syllabus through Handmade Poster and E-Poster presentations.

Outcome of the Event:

2026-27

GRADE **A**

The Handmade Poster and E-Poster Competition was successfully organized on 22 September 2026 as part of Pharmacy Week/National Pharmacy Day celebrations. Students actively participated and presented posters on diverse and emerging topics such as 3D printing, microneedle drug delivery, AI in pharmacy, advanced drug delivery systems, antimicrobial resistance, green chemistry, herbal and crude drugs, drug mechanisms, and AI-assisted pharmaceutical education. The activity enhanced students' scientific knowledge, creativity, research interest, presentation skills, and confidence. The enthusiastic participation and selection of topics beyond the regular syllabus reflected the students' growing interest in innovation, research, and emerging trends in pharmaceutical sciences.
