**8. Event Outline, Objective & Outcome of the Event:**

**Outline:**

The visit was organized at the Water Treatment Plant, Nilgiri Bag, Nashik on 02.04.2025. The plant is a key municipal infrastructure serving the Nashik region by treating water for public supply.

**Objective:**

The purpose of this industrial visit was to provide practical exposure related to the subject *Environmental Sciences for the Pharm* students. The focus was to understand the real-world application of theoretical concepts in water treatment processes.

**Outcome of Visit:**

- Students gained insight into the working and operational sequence of the Water Treatment Plant.
  - They observed the functioning of different units such as sedimentation tanks, filtration units, and disinfection systems.
  - The visit helped students relate theoretical design considerations with actual plant design and operation.
  - It enhanced the understanding of environmental sustainability practices in civil infrastructure.
