Department/ School Name: Department of Pharmacy / SOPS.

Academic Year: 2026-2027

Report on: Event Organized by School of Pharmaceutical Sciences, Sandip University

Event Title: World Patient Safety Day

Event Date: 17th September 2026

Event Duration: 03:00 pm to 4:30 pm

Event Venue: Smart Classroom, SOPS

Coordinator with contact details: Dr. Mohammed Kaleem Khan

Event Outline & Outcome of the event:

Outline of Program:

The World Patient Safety Day Awareness Programme highlighted the shared responsibility of patients, healthcare professionals, and institutions in promoting safe, effective, and patient-centred care. Students actively participated in awareness lectures, interactive discussions, medication-safety activities, a patient-safety quiz, and poster/infographic presentations.

The programme strengthened students' understanding of medication errors, effective communication, teamwork, risk prevention, evidence-based practices, and responsible healthcare, fostering a proactive culture of patient safety and continuous quality improvement.

Objectives of Program:

1. Promote patient safety awareness and reduce preventable harm in healthcare settings.
2. Strengthen medication safety through accurate prescribing, dispensing, administration, and monitoring.
3. Encourage effective communication and teamwork among patients, caregivers, pharmacists, and healthcare professionals.
4. Identify and prevent healthcare risks and errors through evidence-based practices and continuous quality improvement.
5. Build a culture of safe, patient-centred care through education, innovation, accountability, and collaborative action.

Safe care for life!

World Patient Safety Day 2020
Campaign Objectives & NCD Focus

The Seven Pillars Process
From Error to Learning - Building a Safer System

Top 10 Patient Safety Concerns 2020
(ECST, Global Patient Safety)

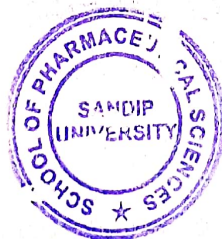

Students / participants actively participating in the World Patient Safety Day awareness programme.

Conclusion

World Patient Safety Day highlights the shared responsibility of patients, healthcare professionals, and institutions in ensuring safe, effective, and patient-centred care. The initiative encourages pharmacy students to adopt evidence-based practices, strengthen medication safety, identify preventable risks, and contribute to innovative, quality-driven, and safer healthcare systems.
