NOTICE

Subject: Community Engagement Program (CEP) – For **Fy** & TY B.Sc. Students

The Department of Mathematics, School of Science, Sandip University, is pleased to organize a **Community Engagement Program (CEP)** for the **Fy** and **TY B.Sc. students** on **Friday, 11 September 2026**. The program aims to provide students with an opportunity to actively engage with the community, understand social issues, develop a sense of social responsibility, and apply their academic knowledge in real-world situations.

Attendance is mandatory for all **Fy and TY B.Sc. students.** Students are requested to report at the venue **10 minutes before the scheduled time** and actively participate in all the activities planned under the CEP.

Details of the Event:

- **Date:** 11 Sept 2026
- **Time:** 10:00 PM
- **Venue:** Talegaon, Trimbak.

Organizing Committee:- Department of Mathematics, School of Science

Brief description of Event: The Community Engagement Program was organized on 11 September 2026 at At Post Talegaon, Anjaneri, Trimbak, with the active participation of 45 students from FY – Computational Mathematics and Data Science.

The program was organized to provide students with an opportunity to interact with the local community and understand the importance of social responsibility, community participation, and collective development. Students actively participated in community-oriented activities and interacted with local residents to understand their needs, challenges, and day-to-day experiences.

The program encouraged students to step beyond the classroom and apply their knowledge, communication skills, teamwork, and problem-solving abilities in a real-world community setting. The coordinators guided the students throughout the activity and ensured active and disciplined participation.

Objective of the Event:

- To develop a sense of social responsibility among students.
- To provide students with practical exposure to community life and local issues.
- To encourage students to actively participate in community development activities.
- To develop communication, teamwork, leadership, and interpersonal skills.
- To create awareness among students about the importance of contributing to society.
- To strengthen the relationship between the university and the surrounding community.
- To encourage students to understand real-world social challenges beyond the academic environment.

Outcome of the Event:

The Community Engagement Program provided students with meaningful exposure to community interaction and social participation. Students developed a better understanding of the importance of community involvement and social responsibility.

The activity helped students improve their communication, teamwork, coordination, leadership, and problem-solving skills. Students also gained practical experience by interacting with community members and observing real-life situations.

The program successfully encouraged students to become more socially aware, responsible, and sensitive towards community needs. It also promoted the values of cooperation, empathy, active citizenship, and service to society.

Overall, the event was successfully conducted with the participation of 45 students and contributed positively to the holistic development of the students.
