Event Outline, Objective and Outcome of the event:

Outline of Program: The School of Science, Sandip University organized the ‘Scientika 2k24’ on the occasion of National Science Day. National Science Day is celebrated in India on February 28 each year to mark the discovery of the Raman effect by Indian physicist Sir Chandrasekhar Venkata Raman on 28 February 1928. This year the theme was set as 'Science for Sustainable development'.

In honor of this day, the School of Science intended to conduct Poster Making, Model Making and Rangoli Making Competition for the students of all the schools at Sandip University.

Objective of Program:

- The Objective of this event was to encourage the students for their active participation in different scientific activities.

- The Basic objective was to make the students realize the importance and use of Science at various levels.
- To motivate the students as well as popularize Science and Technology.
- To widely spread a message about the significance of scientific applications in the daily life of the people and sustainable use of resources.
- To display all the activities, efforts and achievements in the field of science for the welfare of the society.
- To discuss all the issues and implement new sustainable technologies for the development of science.
- To give an opportunity to the scientific minded Students in the University to present their skills.

Outcome:

The 'Science Fair' was inaugurated by the Hon'ble Vice Chancellor of Sandip University Prof. Dr. Rajendra Sinha Sir, Sandip University, Nashik. Students from School of Science actively Participated in competitions that were organized.
