

DEPARTMENT OF FORENSIC SCIENCE
ALUMNI TALK SERIES

EVENT REPORT

Academic Year	: 2025-26
Department /School Name	: Department of Forensic Science
Event Title	: Alumni Talk Series
Event Date	: 16th August 2025
Time	: 08:00 AM – 10:00 AM
Duration in Days	: One Day
Mode of Conduction	: Offline
Event Coordinator	: Mr. Abhishek Rai & Ms. Yukta Guglot
Participants	: Students of B.Sc. Forensic Science 1st Year & 3rd Year

Brief Overview of Event

The School of Science, Sandip University proudly organized the Alumni Talk Series, an inspiring initiative designed to strengthen the bond between alumni and current students. This platform enables our alumni to share their professional journeys, experiences, and insights, serving as real-life role models who guide students in shaping their academic and career paths.

Objective of the Event

Objective of Alumni Talk Series

- Connect alumni with their alma mater and current students.
- Provide a platform for sharing professional experiences and success stories.

- Offer guidance on career opportunities, challenges, and skill development.
- Motivate students through first-hand exposure to real-world scenarios.

Session Highlights

The first session of the series featured Ms. Harsha Singh, a proud alumna of the Department of Forensic Science, School of Science (Batch 2022–2025). Currently, working as a Scientific Assistant at the Regional Forensic Science Laboratory (RFSL), Nashik, a highly prestigious role in the field of forensic science.

Ms. Singh began her talk by expressing her gratitude towards her professors, mentors, and the university, acknowledging the strong academic foundation and practical exposure she received during her studies. She elaborated on her professional journey—from her initial interest in forensic science, academic learnings, and practical training at Sandip University to her current position at RFSL.

She highlighted the role of forensic science in the criminal justice system and explained the responsibilities of a Scientific Assistant in handling forensic evidence, conducting laboratory analyses, and preparing scientific reports. She also emphasized the importance of ethics, accuracy, and attention to detail in forensic investigations.

Ms. Singh shared valuable insights with the students, including:

- The significance of practical knowledge and internships in bridging the gap between theory and practice.
- The need for time management, critical thinking, and problem-solving skills in forensic science.
- The importance of keeping up with emerging technologies and new methods in forensic investigation.
- Career opportunities in government forensic laboratories, private forensic services, research institutions, and academia.

She also guided students on how to prepare for interviews in the forensic field, motivating them to remain disciplined, focused, and passionate about their chosen career paths.

The first session of the Alumni Talk Series was a resounding success. It not only provided students with real-world insights into forensic science but also inspired them to work with dedication and resilience towards their goals. This event set a strong foundation for the
