DEPARTMENT OF CHEMISTRY

REPORT: INDUSTRIAL VISIT TO INSTO COSMETICS PVT. LTD.

Academic Year: 2026–27

Date: 22.09.2026

Venue: Insto Cosmetics Pvt. Ltd., Satpur, Nashik

Participants: Students of Department of Chemistry

Organized by: Department of Chemistry, School of Science, Sandip University, Nashik

Event Coordinator : Ms. Akansha Raut

Introduction

Industrial visits provide students with an opportunity to connect theoretical concepts learned in the classroom with their practical applications in industrial settings. Such visits help students understand industrial processes, manufacturing practices, quality control procedures, safety measures and professional work environments.

The Department of Chemistry, School of Science, Sandip University, Nashik, successfully organized an **Industrial Visit to Insto Cosmetics Pvt. Ltd., Satpur, Nashik, on 22nd September 2026**. The visit provided students with valuable exposure to the cosmetics industry and helped them understand various aspects of cosmetic manufacturing, formulation and quality control.

The visit served as an important academic and practical learning experience for the students, particularly in understanding the application of chemistry in the cosmetics industry.

Objectives of the Industrial Visit

- To provide students with practical exposure to the cosmetics manufacturing industry.
- To familiarize students with various stages involved in cosmetic product manufacturing and formulation.
- To understand the application of chemistry in the development of cosmetic products.

- To provide an overview of quality control and quality assurance practices followed in the cosmetics industry.
- To acquaint students with industrial safety, hygiene and good manufacturing practices.
- To bridge the gap between theoretical knowledge and industrial applications.
- To create awareness among students about career opportunities in the cosmetics and allied industries.

Visit Highlights and Activities

1. Introduction to the Cosmetics Industry

The students were introduced to the functioning of the cosmetics industry and gained an understanding of how chemical knowledge is applied in the development and manufacturing of cosmetic products.

2. Exposure to Cosmetic Formulation

The visit provided students with an opportunity to understand the importance of formulation in cosmetic product development. Students gained practical insight into the role of different ingredients and the importance of their appropriate selection and processing.

3. Manufacturing Process

Students were exposed to the industrial manufacturing environment and gained an understanding of the various stages involved in the production of cosmetic products. The visit helped them relate laboratory-scale concepts with industrial-scale manufacturing practices.

4. Quality Control Practices

The importance of quality control in the cosmetics industry was highlighted during the visit. Students gained awareness regarding the need for testing and maintaining the quality, consistency and safety of cosmetic products.

5. Industrial Safety and Hygiene

The visit also helped students understand the importance of maintaining proper safety, cleanliness and hygiene standards in a cosmetic manufacturing facility. Students were made aware of the significance of following appropriate industrial practices during manufacturing and handling of cosmetic products.

6. Interaction and Learning

The students interacted with the personnel during the visit and gained valuable information regarding industrial operations, cosmetic manufacturing and quality control. The interaction provided students with a better understanding of the professional expectations and working environment of the cosmetics industry.

Conclusion

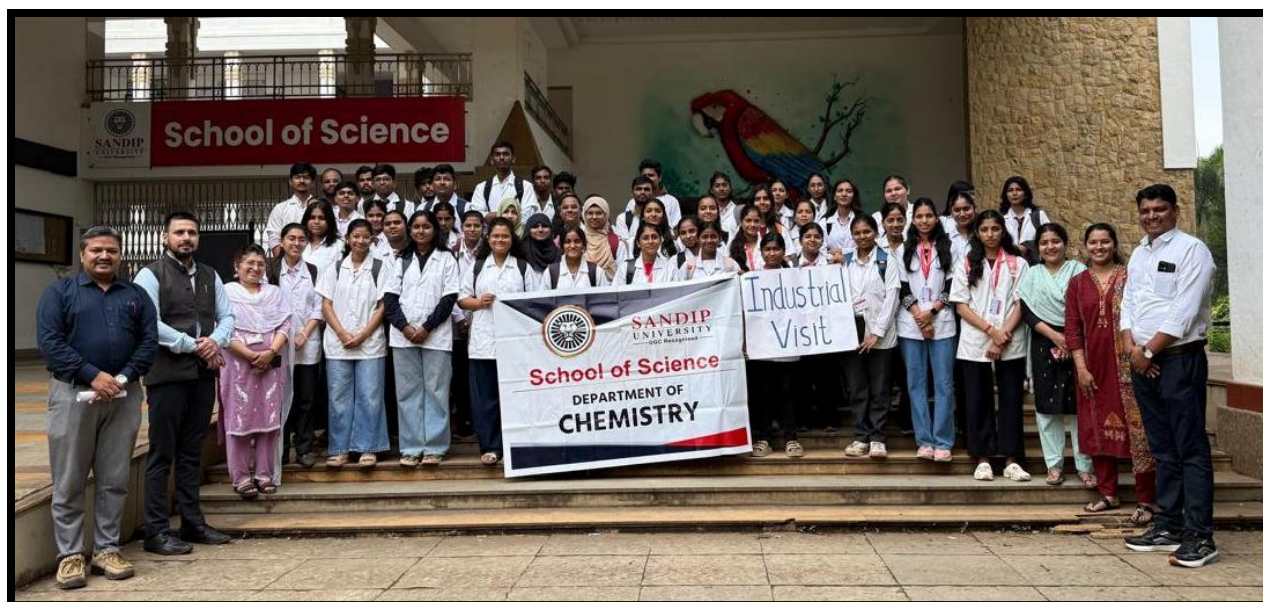

The **Industrial Visit to Insto Cosmetics Pvt. Ltd. on 22nd September 2026** was successfully organized by the Department of Chemistry, School of Science, Sandip University, Nashik.

The visit provided students with meaningful industrial exposure and enhanced their understanding of cosmetic formulation, manufacturing processes and quality control practices. It served as an effective platform for bridging the gap between theoretical knowledge and practical industrial applications.

The Department of Chemistry, School of Science, Sandip University, Nashik, expresses sincere gratitude to the management and staff of **Insto Cosmetics Pvt. Ltd.** for providing the students with this valuable learning opportunity and for their cooperation and guidance throughout the visit.
