### Objective:

World Ozone Day is observed every year on September 16. Its purpose is to raise awareness about the ozone layer and the hazards associated with its depletion and to enhance awareness regarding the significance of conserving the ozone layer.

The theme chosen for this year's World Ozone Day 2023 is

**Montreal Protocol: Fixing the ozone layer and reducing climate change**

Which focuses on "Addressing Ozone Layer Depletion and Mitigating Climate Change."

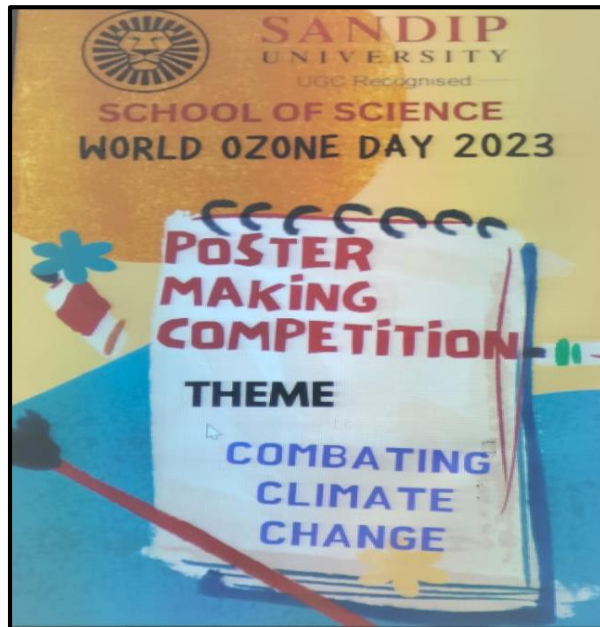

## Report:

As a part of the 'World Ozone Day' School of Science Sandip University Nashik organized following activities on 15.09.2023.

**Tree plantation campaign** was organized Near **Neelam Sagar Lake, Sandip University Nashik** with the aim to inspire students to raise awareness about human health and ecosystem. Where Associate Dean, all HOD's, faculties and student from School of Science actively participated and took oath to work together in healing the mother earth. Simultaneously faculty members encourages students to understand the value of protecting the ozone layer.

Poster making competition were organized where students from School of Science Sandip University participated with great interest and enthusiasm. The poster making competition centred on the theme “Combating Climate Change”.

Some glimpse of poster making competition:

The students have made exquisite posters representing the importance of ozone layer and climate change and how it had been damaged over decades mainly due to human activities. The purpose was to create awareness amongst the student in order to tackle the global warming and climate change.

The programme finally concluded with the distribution of prizes. The winners were awarded with certificates and prizes: All participants were awarded with e- certificates.

**The judge's panel committee include: Head all departments (HOD's) (School of Sciences) Sandip University, Nashik.**

The 'World Ozone Day' end with vote of thanks by event co-ordinator Ms.Pratiksha Magar.
